

Kappa Sigma fraternity members.

Kappa Sigma in Review

In 1966, Kappa Sigma became the first national fraternity on the Muskingum campus and supplanted the Sphinx Club, second oldest social club on campus. Today, Sphinx-Kappa Sigma alumni number around 1000 and continue a strong relationship through our alumni chapter.

At a local level, we find our bonds of brotherhood and campus participation as our major achievements. We stress diversity and individuality, and one may find Kappa Sigma in various varsity sports, as student departmental assistants, in fine arts productions and groups, in the campus radio station, in all academic areas, and functioning socially all year.

Community activities, such as our

annual visits to the children's wards of the two Zanesville hospitals at Christmas, constitute another side of the fraternity.

At a national level, our chapter is one of 180 chapters in North America. This body became a national fraternity because of the many benefits we have found national affiliation provides. Every chapter offers its hospitality and brotherhood to all active members while traveling or visiting other campuses.

We are a compact body that is proud of its national affiliation and heritage which dates back to 1869. There are no barriers as to who may become a Kappa Sigma, but we do seek individuals who will work for our fraternity and wear its insignia with pride.

Delta Philosophy

The members of the Delta Club can be seen all over the campus, in every aspect of social and academic life. The girls in green and black hold many important positions on the Residence Life Staff

Deltas are seen in other responsible positions on Center Board, Student Senate, Judiciary Board and Faculty Judiciary Board.

Many students may have recognized the smiling faces of the five Deltas on the football cheerleading squad and are now enjoying the vivacious basketball cheerleaders with two Delta members.

Speaking of sports, Deltas just don't cheer on the sidelines, the Club has athletes in many sports, including cross country and basketball.

The range of Delta activities

Girls Improving

The Muskingum College Women's basketball team faces an imposing schedule in the next week as they square off against Rio Grande, Ohio Northern and Central State.

At press time the lady Muskies record stood at 2-7. Coach Donna

doesn't stop there. If anyone listens to WMCO, they are sure to hear some unique programs presented by some of the more

vocal club sisters. The college television station is also frequented by many Deltas, both on

the air and in production. The Club also has people on the staff of the B & M and the Yearbook.

Delta Gamma Theta means all of this and much, much more. It's friendship and fun, responsibility and sisterhood. In the creed of Delta, Love and Loyalty aren't just words to the members of the Club, it's a way of life.
